## What is Education Management

Education Management fully automates the administrative, operational and managerial needs of an Educational Institute, College or University, School, or Corporate Training Department.

## What does an Institute need?

The typical institute would have activities that range from generating Enquiries for Courses, to enabling Student Registration, to Attendance, to Exam management, and sending out SMSes and Emails to all stakeholders.

# Service Model

## CLIENTS MAY CHOOSE RELEVANT MODULES

We understand that not every customer requires every module or feature. Clients may choose whatever modules they see fit for their specific case.

## WE PROVIDE CUSTOMIZED SOLUTIONS

This could include field-level and form-level changes, and larger process-level and business-specific customization

## END-TO-END IMPLEMENTATION

WE handle your end-to-end implementation starting from Requirement engineering to product fitment to product setup to training to maintenance and documentation.
